In lieu of a Medicare beneficiary representative on its Governing Body, Duke Connected Care (DCC) received permission from CMS to create a separate Beneficiary Representative Committee (BRC) consisting at least three Medicare beneficiaries served by DCC. The BRC is responsible for making recommendations to the Governing Body regarding several key functions and areas, including establishing physician participation standards; endorsing a quality assurance and improvement plan; endorsing a patient engagement plan; and endorsing a clinical performance incentive plan, which includes a means of ensuring the meaningful commitment of participants and providers and the distribution of any shared savings to participants. All BRC recommendations are made directly to the Governing Body for its review and comment.
